

## **‘I Intend for You to Bless’**

I gave you My authority in My name when I regained, by resurrection, everything that belonged to Adam and more. Now, I authorized Adam to bless. I authorized him to be a blessing. But I also authorized him to bless the whole earth, and My people have continued to cry out to Me for blessing when the blessing is already on you. And I’m commanding you to bless. Bless. Bless. Bless. There’s more to this than just a little God bless you. Amen. I intend for you to bless this nation. I intend for you to bless the leaders. I intend for you to bless your church. I intend for you to bless your pastor. I intend for you to bless the whole congregation. I intend for you not only to be a blessing, but to command the blessing upon those around you. Go around your house and say, “Be blessed in the Name of Jesus. Be blessed in the Name of Jesus. Be blessed, be blessed, be blessed, be blessed, be blessed. Be blessed in the name of Jesus.” I command this whole center section be blessed! I command this section be blessed! Be blessed, be blessed, be blessed. Be blessed, be blessed. I command the blessing of God on you. Heaven come down on you in the Name of Jesus.

Now are you blessed? Well then bless the city of Milwaukee. We bless you Milwaukee, we bless you Chicago, we bless you all. All of the Northeast, all of the Midwest, all of the Northwest, all of the far Northwest and all of the South and the mid section of this whole nation. And we bless every nation that is represented here tonight outside the United States, praise God. Amen.

Now I want to remind you of something. Two scriptures back to back. One, “any good thing that any man doeth the same shall he receive of the Lord.” Now how did you ever think you were ever going to get blessed if you didn’t bless, because give and it shall be given to you again pressed down, shaken together, running over. When you sow the seed of blessing it increases the blessings in your life and on your life. Amen. You ought to just walk up to a total stranger. I do it a lot. Just walk up to a total stranger and just smile and say “You know what? I just wanted to bless you today in the Name of Jesus.” And it wouldn’t hurt you to, you know, put a little green blessing inside the palm of your hand and when you reach out shake hands with them let that twenty just slip over there into their hands. Say, “I don’t know who are, don’t care who you are. I just wanted to bless you in the Name of Jesus. God just wants me to bless you today. Amen. You don’t know what living is if you don’t live like this. Hallelujah. Amen.
